

EXTEND THE VALUE OF YOUR IBM COGNOS SOLUTION WITH

CPM EXPLORER™ FOR MICROSOFT OUTLOOK

Simplify the IBM Cognos user experience with Microsoft Outlook integration

MICROSOFT OUTLOOK INTEGRATION

CPM Explorer for Microsoft Outlook is a Microsoft Outlook integrated solution, providing easy access to IBM Cognos connection, using an incredibly powerful Content Store tree view for easy navigation.

With CPM Explorer for Microsoft Outlook, consumers no longer need to open Cognos Connection in a separate browser. IBM Cognos users can browse their content, run and validate reports, copy and paste specifications, and save favorite searches and objects.

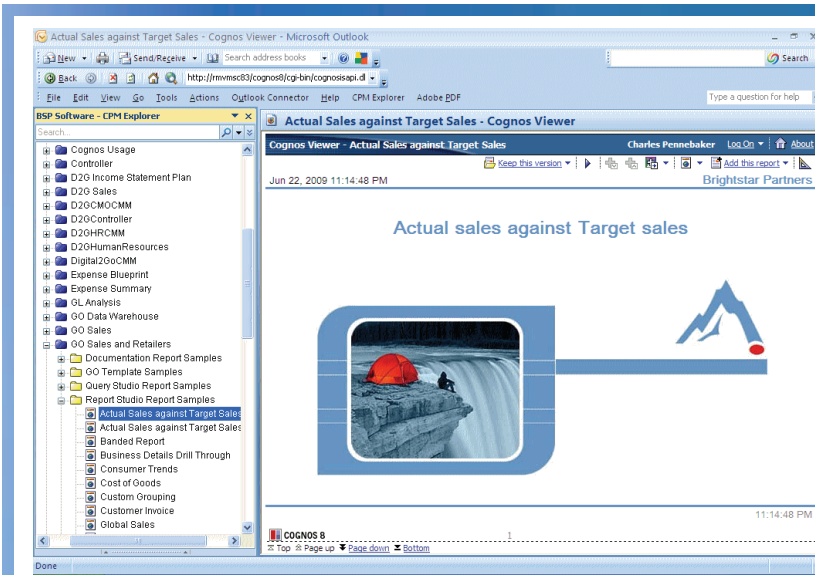

All without leaving Microsoft Outlook!

Best of all, this is all done leveraging existing IBM Cognos security (Cognos and company LDAPs). CPM Explorer for Microsoft Outlook adheres to IBM Cognos 8 security by enforcing each consumer to log in before being able to browse the contents of IBM Cognos Connection.

INCREASE USER ADOPTION THROUGH A SIMPLIFIED EXPERIENCE

*Access IBM
Cognos
Content without
leaving
Outlook!*

CPM Explorer for Microsoft Outlook allows Cognos users to:

- View and run IBM Cognos content directly within Microsoft Outlook
- Navigate IBM Cognos Connection Content
- Search for content using simple searches, advanced search path, and powerful build-searches
- View and modify object properties
- Validate content
- Copy and paste specifications
- Save favorite reports and searches for easy access
