

BSP RECYCLE BIN[®]

Recover Deleted Content,
Whether Accidentally or Intentionally

PROVIDE A SAFETY NET FOR YOUR USERS

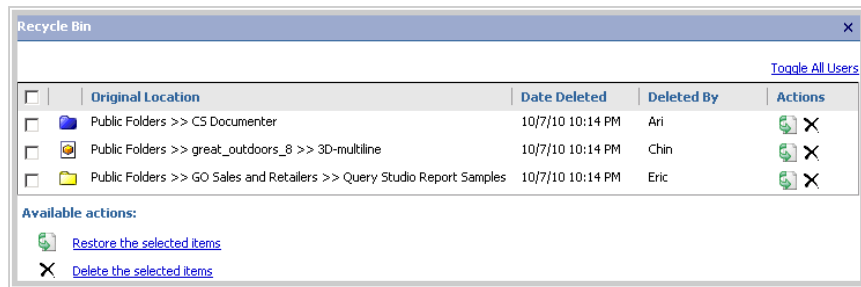

BSP Recycle Bin Offers:

- ☑ Direct integration into IBM Cognos Connection
- ☑ Availability to each user as well as globally to administrators
- ☑ One-click content restoration
- ☑ Support for packages, folders, reports and more

INSURANCE PLAN FOR IBM COGNOS CONTENT

Most Operating Systems come with a dedicated storage area that retains files that have been deleted, whether accidentally or intentionally. Users can review the contents of these recycle bins before deleting the items permanently. Traditional recycle bins hold data that not only lists deleted files, but also the date, time and the path of those files.

Until now, this capability did not exist within the confines of IBM Cognos, leaving users in a bind when reports, folders, etc. are intentionally or inadvertently deleted. Previously, the only way to recover a deleted item in Cognos was to look to a backup of the content store (if one is available).

“We can safely enable our users to manage their own content without concern for accidental deletion of vital content.”

The BSP Recycle Bin for IBM Cognos was designed to retain content that has been deleted from Cognos Connection. Positioned directly inside of Cognos Connection, users will have their own My Recycle Bin, enabling them to recover deleted items when the need arises. Administrators will have access to the Recycle Bin of all users.

BSP Software is an IBM Partner and member of the IBM Global Solutions Directory program. With a team of senior Professional Services and Product Development resources, BSP Software LLC and BrightStar Partners provide service offerings and Implementation-Based Software solutions to IBM Cognos customers worldwide.

For more information on BSP Recycle Bin and other Implementation-Based Software solutions and professional services offerings, please contact us by telephone at 888-915-6200, email at contact@brightstarpatterns.com or internet at www.bspsoftware.com and www.brightstarpatterns.com.
